

# Accelerated Math 6 Online Learning Questions

1. How is the schedule going to go? What time does class start?

Please see the recommended schedule in the Viking Weekly that was sent out.

I will send you the math on Monday morning of each week. You may complete the work whenever works for you, but we will try to hold meetings or specific questions during our recommended class times.

2. How often will assignments be posted?

You will get an email about assignments from me once a week - Monday morning of each week! You can complete them whenever works best for you! ☺

3. Will we have Zoom meetings or Google meets?

Today was so fun to see your faces in our Zoom meeting! We can consider Zoom meetings as needed during our recommended class times. I will be using Zoom over Google meets. We will not do Zoom everyday.

4. Will there be certain times for things? Do I have to be on Google classroom at a certain time?

You will not need to go on Google classroom at a certain time. Complete the work when it works best for you!

There will only be certain times for any Zoom meetings we plan. We will keep these during our recommended class times sent through the Viking Weekly.

5. How are you going to teach us the lesson?

I will be sending you lesson tutorial videos recorded by Mrs. Edick or myself. Or I will be sending you what lesson tutorials to go watch on the Big Ideas Online Textbook.

6. Are you going to show us all of the new lessons or are we using the textbook examples to learn it?

Let's try half and half this week and check in to see how it goes!

7. What if I have a question while I am working?

If you don't understand something while you are working or have a question, you can email me, message me on Google classroom, or message me on Remind! I will try to message you back as soon as possible. (Just remember, there are a lot of you and only one of me! ☺)

For homework problems, you can send me problems you struggled with and I will make a video reviewing those problems and posting them for the whole class.

Similar to how we go over homework in class. ☺

8. Can I ask questions in the class comments in Google classroom?

Absolutely! I will try to message you back as soon as possible and feel free to help each other out!!

9. Do I need to print worksheets? If I can't print out the pages, can I get access to typing on the sheet?  
You do not need to print the worksheets unless you would like to and are able to. I would HIGHLY recommend completing your work on a separate sheet of paper if you are unable to print.
10. Will we have checkpoints and tests?  
Nop! None! 😊 We will wait until we are back together.
11. Do I have to show you/turn in my work/homework?  
You do not need to turn in your homework while we are not in school. But, please keep ALL your assignments organized so we can check them in when we are back in school. 😊
12. Is there a certain time for completing homework?  
Your goal will be to complete the homework by the end of that week so it doesn't pile up. We will not be "checking in" homework until we are all back together!
13. Do I have to tell you every time I finish an assignment?  
Nop! 😊 I trust you. Just keep the assignments so we can check when we are back together.
14. Can you post extra practice for the lessons each week?  
Yes! I can post optional extra practice for each of the lessons. You are not required to do these. These will always be great practice as we continue to move forward and you want to go back and review. 😊
15. Are there any apps to download that could help with what we are learning?  
It may help to download the Google Classroom app and Big Ideas Math app for your online textbook. Otherwise, Khan Academy is a great additional resource to support our learning!
16. When is spring break?  
It starts Friday April 3<sup>rd</sup> and the entire week of April 6<sup>th</sup>-10<sup>th</sup>.
17. Will there be M-STEP?  
I don't know this yet! But I will share information with you as I find out. For now, don't even worry about M-STEP 😊
18. Do you think we will have to go longer into the year? Or start earlier?  
Again, I don't know this yet! But will keep you updated as I find out! 😊
